Outstanding Engineering Achievement Program

Top regional projects judged by
Presidents of regional chapters

The Outstanding Engineering Achievement Awards Program strives to recognize projects, regardless of engineering discipline, that demonstrate engineering challenges and innovative solutions, communicate the importance of the Engineering Profession to society, and provide a clear and tangible benefit to the Greater Philadelphia Area and Delaware Valley Region. PSPE Philadelphia as host and coordinator of this event invites applications from all engineering disciplines as it is our goal to recognize the importance of all engineering disciplines in the OEA Awards Program.

Nominated projects due November 15th, will be short-listed and presentations (voice-over-Powerpoint or voice-over screen, converted to MP4 format) will be due Wednesday December 4, 2024. Presenters will share and respond to Q&A via Zoom on Thursday, December 5, 2024.

Our panel of judges, comprised of the presidents of the four chapters in the southeast region of Pennsylvania PSPE as well as the two chapters of Delaware Valley region of NJSPE, will lead Q&A, then adjourn to deliberate with results published on Friday morning December 6th, and published on our Chapter website <http://pspe-philly.org/>.
