Tuesday October 4th, 2016

Licensure for Software Engineers

*Presented by Dr. Phil Laplante – Professor of
Software and Systems Engineering*

DATE – October 4, 2016

LOCATION – Penn State Great Valley –

Main Building

COST - \$35 per person (\$15 for Students)

Checks payable to **DELCO PSPE**

Meet and Greet- 6:00 pm

Dinner - 6:30pm

Presentation - 7:00pm

Cont. Ed. - 1 PDH available

Register at - www.pspe.org/delco

Deadline - September 27, 2016

Questions: contact Dewey Jurich at

deweyj13@yahoo.com

Licensure for certain software engineers working on systems that affect the “health, safety and welfare” of the public is available in more than 40 states and will likely be required in all within a few years. States license engineers to ensure that those who offer services directly to the public are minimally competent. But what kinds of software systems affect public health, safety, and welfare? Which software engineers or data professionals will need to be licensed? What is the difference between licensed software engineers and licensed computer, electrical or systems engineers? The answers to these questions and other aspects of licensing software engineers will be discussed.

Meeting Presented by

The Bucks County PSPE Chapter

The Valley Forge PSPE Chapter

The Philadelphia PSPE Chapter
