

**Pennsylvania Society of Professional Engineers
Philadelphia Chapter
Course, Presentation and Networking**

Thursday, January 5, 2023

Virtual Course*: 7:00 PM to 8:00 PM

**Elevators
Complex Machines in Today's World**

**Presented by
Joseph F. Maida, PE
President
Maida Engineering, inc.**

The course provides a brief history of elevators and an overview of the codes and standards that regulate them and the technology that makes them safe and suitable for all types of buildings.

Pennsylvania Society of Professional Engineers (PSPE), through PIE, evaluates and approves "courses" as meeting the continuing education license requirements for 1.0 Pdh in New York State. PSPE courses are approved for FL and PSPE believes its "courses" will be accepted for credit in PA & other National Model states where courses do not require approval.

Prices using Paypal

**FOR RESERVATIONS GO TO:
<http://www.pspe-philly.org>**

The ZOOM address for attending the course and the "PSPE/PIE Course Evaluation Form will be sent to the registered attendees at the e-mail address listed on Paypal statement

* PSPE/PIE Certificates will be sent to the registered attendees at the e-mail address listed on Paypal statement after the attendee completes and returns the "PSPE/PIE Course Evaluation Form". Course Evaluation Form must be returned to jmaida@maidaeng.com within seven (7) days or January 13, 2023.

To verify attendance, attendees must keep the video camera on during the entire course. Anyone that is late for the course or who leaves the course during its presentation, may not be eligible to get a PSPE/PIE Certificate.
