Presents

MATERIALS TESTING & INSPECTION LAB TOUR and HOAGIES

Thursday April 6, 2023

6:00 PM to 8:00 PM

Tour Pennoni's newly expanded and renovated, 4,700 SF materials inspection and testing lab to see first-hand cutting-edge technology used on analyzing and testing some of the technologically advanced materials used in construction today. Some tried and true materials test apparatus will also be described and there will be live demonstrations throughout the one-hour tour.

Location: 3100 Horizon Drive, King of Prussia, PA 19406

One (1) PDH will be earned and certificates issued suitable for most states and specifically approved for New York Licensees.

Presented by:

Mike Padula, PE, CWI

Mr. Padula has over 20 years of experience in structural engineering, construction material engineering and testing (CoMET) and Special Inspections. He has extensive experience performing and overseeing construction materials testing per ASTM standards both in the field and the laboratory. He is responsible for the overall quality control of our CoMET and Special inspection services. He also has extensive experience with managing on-call type contracts for higher education, counties, and private clients. He is responsible for maintaining laboratory accreditations, confirming test procedures, coordinating laboratory staffing/scheduling, and documenting test results.

Michel Hatem, PE, CWI

Mr. Hatem has more than 30 years of experience in engineering and construction, including materials testing and inspection, such as subgrade evaluation, piles, earthwork, concrete, engineered masonry, asphalt and structural steel. Projects and involvement have included structural design of foundation systems, design of roadway pavements and parking lot pavements, structural evaluations and troubleshooting, design of concrete mixtures, geotechnical and environmental engineering assessments, and expert witness in court proceedings.

The Courses will be accredited for 1.0 Professional Development Hour each by the Pennsylvania Society of Professional Engineers through PIE to meet continuing education license requirements in New York State. PSPE believes that the tour will be accepted for credit in PA, NJ and other National Model states where courses do not require pre-approval.
