Yefim Gudesblat, PE
Chapter Director, 2022

Justin Alexander, PE
Chapter Director 2022

Edward P. Pluciennik, PE
Chapter Director, 2023

Vacant
Chapter Director 2023

The Philadelphia Chapter has continued through the 2020-2021 Calendar Year with monthly virtual Board meetings to ensure that keep our Board members in communication with each other and allow us flexibility with planning upcoming events.

We continue to offer monthly opportunities to earn Professional Development Hour (PDH) credits required toward license renewal. Since our last State Board of Director Meeting, PSPE Philadelphia Chapter has offered the following courses, each worth 1 PDH:

February 4th, 2021: Combined Heat and Power (CHP) Basic Design

March 4th, 2021: Large UPS Operation, Design, & Configurations

April 1st, 2021: Technology & Trends in Vehicle Automation

Last Thursday evening, on May 6th, we held our Annual Meeting with installation of the 2021-2022 Officers and Directors to their positions. Our Officers and Directors remain committed to serve the Chapter and its Members while upholding the By-Laws of the Society.

With MathCounts using a virtual model for Local, State, and National Competitions, we had members support program execution as proctors for various parts of the testing.

Below is a capture of our upcoming planned Chapter activities. I look forward to providing you with more good news as we meet in the coming months.
